

# HUGE SAVINGS\$

## WITH GamColor Junior Roll

Using Junior Rolls is like getting TWO FREE sheets with every roll you buy.

If you choose GamColor® Junior Rolls and you are cutting the same 6 in x 6 in squares, you will be able to cut a total of 132 squares for your gel frames. In order to get the same number of cuts from sheets you would require eleven (20 in x 24 in) sheets.

### EXAMPLE:

Cutting these squares from sheets, you will get four across and three down, for a total of twelve cuts. There will be a 2 inch strip, 24 inches wide at the end of each strip, not usable for very much, basically scrap. That is a total of 48 square inches or 10% of the sheet in the garbage bin.

### SCRAP

48 square inches per sheet x 11 sheets equals 528 square inches of scrap.

### GamColor® Sheet

The Junior Roll, for \$65, will give you the same yield as eleven sheets costing \$79.75 (retail price). The savings can be even greater with other sized frames. For example, with 7½ in x 7½ in frames, you will have twice as much waste. GamColor® Junior Rolls offer a distinct savings, a superior quality gel, and a more convenient product to handle. The full rolls can save you even more money on much used colors in your pallet. GamColor® is the only color filter family available in sheets and three roll sizes in every color.

### GamColor® Junior Roll

**132 Squares • 33 Cuts • No Waste**

#### 18% Savings with Junior Roll

132 - 6 in x 6 in cuts  
 Junior Roll .....\$65.00
